This hoarding wrought and put up by KELVA NAGARI Police Station of Maharashtra, India, is indeed very conspicuous!

1. WRITERS' DEVIL!

10 – 11 – 1997

(1)

“Two snakes swallowing each other from tail,
Ring became smaller and smaller," said tale,
"And finally disappeared both" wonder!
Tale heard, 'X' promptly rejected it blunder,
And reported real incident, "One snake
Swallowing, its own tail vanished alike!"
Like these we could see tales plenty in Books
Sacred, supposed to be religious hooks!
As the author of one Book, sacred, writes -
Story of snakes two, of one the other narrates!

(2)

Under the sea, Hiranyakshan hid world,
Vishnu incarnated into Pig bold,
Killed Hiranyakshan and retrieved the 'gold'!
Author of the Book very sacred, told!
But, sea itself being part of the world
How can one, under sea keep it and hold?!
Wonder! You the whole your mouth swallowing!
The whole into its own part, submerging!

(3)

In charity, earned Vamanan three feet
From Mahabali: cheating came to light
When He grew to size big and measured the whole -
Of the world in one foot, second foot's sole
On heaven, and finding no place to keep
Third, Mavali bowed his head for next Ieap!
Vamanan trampled him to nether-world!
Question great arises from story told!
Where was Maveli? In heaven, hell or earth!
If was in heaven or earth, isn't it worth -
Think; already His leg fell on his head?
Then to keep His next step, where is his head,
If he was already in 'Pathalam'?!
Then how He trampled him to "Pathalam'?

(4)

He didn't replace the rib, from him taken
But, did close up the flesh, as a token!
Yet, they all have number of ribs, correct,
Author's devil common! Ye resurrect!

(5)

Being the God, didn't He knew in advance
Man would disobey Him and eat the fruit thence?
If God created man He wouldn't have him
Given brain so bad to disobey Him,
To turn criminal, to become a cheat,
To turn a murderer or prostitute!
So, crystal clear man not by God created
But, evolved through natural process, protracted!

(6)

First there was nothing, God made everything,
Says Books sacred, so, let us think one thing!
If God created all from nihility,
How devil came into reality,
Unless, God himself created devil!
If so, why He created the evil?

(7)

Because of the Sun, exists the plant life,
That's the reality, we all know rife!
How, plant-life could exist a day before -
Sun's birth or creation that makes furore!?
Author's scientific knowledge then nil!
If they knew, would have changed the order well!

(8)

It's said, God made the Sun, Moon, Barth and Stars,
But the nil mention about the Planets, Mars -
The authenticity of the statement!
Probably it’s author's unaware comment
About existence of Planets, discovered -
Later by scientists, which are powered -
By Sun, difficult to be distinguished
From the Stars, by the common eye, vanquished!

(9)

We know, without a source there can't be light,
Dawn, dusk, day, night, result of the sunlight,
Entering or withdrawing as a result-
Of the earth’s rotation, and so, it's fault -
To believe their presence without the sun!
If sun is created only on forth day, fun!
How could there be light, dawn or dusk, before -
Sun's birth or even creation uproar!?
So, isn't it clear, sun evolved, not created!
God can't create sun late, as reported

If God made everything from nothingness
It must be He who made all the badness!
Few blindly believe all in the scriptures -
Just because they are the sacred lectures!

(10)

When there's a need, God takes incarnation
On earth, to annihilate formation
Of evil, and save human beings from -
Doom, most of the religions do confirm!
But, why God created evil on earth,
And then incarnate to save man from froth?
If God made everything from nothingness
Then He himself made devil, hell, blindness!
Can we think of a God who, would create
The downtrodden and the sick, to inculcate -
On men, ideas of HIS power, greatness,
Flattery addict with full luxuriousness?
Why God creates the handicapped, the dying,
The abandoned and the neglected – frying!?

(11)

Creation of Adam, proves clearly,
God's ability to create directly
Human being and so there wasn't any
Need to create the Eve with rib any!
The author wrote so to show purposely
The fair sex, inferior profusely!
The author was 'YOME' and not ‘XOME', it proves!
Being self-contradictory it carves!

If God created her He would not have
Shown partisan attitude in that move!
It's time high to stop believing 'YOME'-written-
Stories 'XOMES' of the world, protest, rotten -
Made-to-believe tricks implanted in sacred
Books can we think of a God not sacred,
Not permitting 'XOMES' to pray at places
For worship, along with 'YOMES'; but forces
Them to confine their prayers at their homes!
ARISE 'XOMES', RELIGIONS ARE AGAINST 'XOMES'!

(12)

Don't these mistakes lead to realization -
They are nothing but, visualization?
Don't these blunders, Himalayan, expose
They are mere imagination - repose?
Don't they prove, earth, sun, planets and man
All evolved themselves and not created as scripts ran!
Some still believe: they are blind religious:
Won't bother rack their brains, search rigorous:
Impossible imposed on innocents,
Innumerable are illustrations!

(13)

Scriptures say God created Universe!
So, the question arises in the converse!
Where was God when He created universe!
Never can He be inside the universe
He created! Universe is infinite without end!
He can't be outside the universe as it doesn't end!
Even in imagination one can't imagine a place
Outside universe, as it is not having outside space!

2. ERROR? DICE-PLAY! OR EXPERIMENT?

17 – 11 – 1997

(1)

The month of July nineteen ninety four
Witnessed episodes much spectacular
During visits of comet Shoemaker -
Levy, in fragments it plunged into Jupiter,
One after another: poor God, never
He expected it would happen ever!
Orbits fixed were given to all planets,
There were orbits fixed too, to comets!
From time immemorial, Levy kept
It faithfully: it seemed, alas, inapt -
God was to ferret out Levy's inept -
Aim, to have one day union corrupt!

Either we have to admit, God did play
Dice; or, we can't God's ability, rely!
Arguments could establish, God had set
The plan in advance to make it fall on it!

(2)

HINDU on fifth March ninety six published
The photograph of Byron, a two-headed
Baby Herald snake at Durban snake-park!

In ninety seven May a strange art work,
A rare twin-headed snake was main attraction
At Mysore zoo - heard only in fiction!
Complete sensory organs in each head -
Having, two central nervous systems led
The control, the functions of one body!
God's dice-play or a mutation, tardy!?

(3)

We come across, though rare, Siamese twins
A pair of human beings joined since
Together from birth! It's the man who comes
To its rescue, as science helps them, trims -
It into two human beings to live!

If it's God who creates, why does He give
Life to such monstrosities, is it a slip?
But, can God by nature commit a slip?
Otherwise He may be playing the dice
But, that's not suitable to a God wise!

Those who earn livelihood, care of religions,
Would say! "God is testing or punishing, omissions!"
The magic way to cheat the believers
And make wag their tails to all the governors
Who always govern God to their tunes and whims!

When on Siamese twins, the doctor trims,
They turn two individuals separate!
Is it that when they were one, corporate
Life single they had, or they had two lives?!
Or will you say: when they became two halves
The life also was split into two bits
Each having one half-life!? Wonderful hits!

(Earth worm too, when cut into two, tailless part
Grows a tail, and headless, a head part!)

Did any religion dealt with ever
Such a situation!? No! As Doctor -
Is here the real God, and not god the God!

Why still hesitate? Why still mum? Give nod,
Life's nothing but a condition - working

Can we think of a God experimenting?!
Creating monstrosities of nature?
It's evolution, not creation of creature!

3. QUESTIONS ANSWERLESS!

20 – 08 – 1997

At propaganda meetings, though many,
Staged cases, sometimes some very funny -
One also may arise, astonishing -
Every one present; a dumb one speaking!

It's nothing strange to the one who's having
A bit of psychological leaning;
But, to the superstitious it's Lord's hand;
To others it is question, answerless found!

Quick rhythms of prayer-songs and dances
Inject excitement into Weak that pounces
The handicapped one's affected muscle,
Nerve or even emotion, to reconcile!

It need not be God; even invoking
The Devil may do the trick, provoking;
At home or road too, a certain shock could
Rectify the defect and bring knighthood!

At times, even, sincere psychologist
Or psychiatrist or neurologist
Could succeed in bringing back normalcy!

Aims and works hard, but no complacency
For him; for, he couldn't achieve still his aim;
Answer he could find not, why it's the same!

All the treatment meted out, couldn't lessen
His pain, intolerable; confusion
Prevails in mind, why all these sufferings?!

What's the meaning of life? Such ponderings
When couldn't find answer, asylum they find
In God, that makes them superstitious kind!

Which came into being first, egg or chick?!
As science answered many, are now in check!

(((((O)))))

4. SOUL! MIND! LIFE!

04 – 08 – 1997

Cloning humans has ethical dimensions!
Cloned humans will have different minds, visions,
As people are more than sum of their genes.
Though DNA same, environment leans
Different ways, so soul and mind too, different!

Contradicts this really the current
Religious concepts of the soul, in fact!
Some religions say that soul is intact
Like conservation law of energy!
“Soul can neither be created or see
Soul destroyed, it only changes from
Dead to another newborn," don't conform!
Said is the same argument about life,
Soul can exist, only if there is life!

Infinite individuals could be
Cloned now, by Man, and each one ought to be
Having one soul; from where will come these souls,
Or all these lives as the common man calls?!
The possibility is that God might
Not have visualized such kind of tight
Contingency; might not have been prepared!
Poor God! He's in a dilemma – hampered!

Real proof of inconsistency pity:
If God isn't having such ability
To visualize in advance, then how
Before the supposed power we can bow?!

Actually in ordinary case
Number of lives is increasing - that's we face -
Increasing incessantly – so fastly
If life only transfers how actually?!
Existence of life indeed physical -
Phenomenon, it is mechanical!
Works well machine when assembly perfect,
Energy sufficient, conditions inject
All well balanced; but when upset it stops.

Exactly same happens when problem crops-
Up in living beings - when requirements
Met, it lives or else it dies. Have comments.
Life! Nothing but the working condition!
Lifeless can't act, or have cogitation.

We never speak of the soul of a plant
Though it lives; it just acts, thinks not the plant.
It acts as it produces; question of soul
Comes only when something can think good, foul!

What's the difference between live and lifeless?
Self duplicating ability-less,
Lifeless; while others with, life-full! Wonder!

One dies of heart failure, retrieves doctor
Him back to life; had the doctor not pressed
His chest, he would have died; we are impressed!

Are we to believe that the man's soul, left -
The body and then came back or bereft
By doctor and restored to the patient?

Is the so-called soul something impatient?
To leave a body at the will of rude -
One who shoots or at Doctor's will, intrude!?

Anybody could kill anybody!
Doesn't it mean that the soul is not steady?

There exists nothing like the supposed soul
And life is just working, condition – whole!

5. BORN FREE: BIRTH RIGHT TO LIVE FREE!

25 – 12 – 1996

As Life emerges; along with Mamma's milk
It's well dressed too, with those religion-silk!
But, what's silk? It's the million sins' essence!
Injecting virus into innocence!

And as the innocent one grows in time
It finds it difficult, escape from crime!
The crime of hating other religions
Religions that make, man hate man, legions!

It's the birth-right of every life that's born
To blossom, in environment no thorn
Allow mature them, in omniscience;
Don't sin and try influence! It's nonsense.

Blossomed mind, desires if so to embrace
Hesitate not thee let one have self-choice,
Otherwise, let one be Human gracious
Rather than one being Mad-religious!

First religions formed, intentions sincere
Prejudicial though, and contents obscure!
Cruel time as gnawed in, turned notorious,
Lively-hood of those the sanctimonious!

Mesmerized, escaping finds so difficult
From Assistant's clutches; they are occult!
Submitted identity lost, sure devour:
Superstitious better than waverer!

Are we chameleons to change colour:
Saffron, green, blood-red: so on? Why force all cover?
When fix names, avoid belief-suggestive,
Be Good Samaritan, lambs fugitive!

* * * **********

Degrees thousands won't suffice make one wise,
Literacy, measure not to devise!

6. DISHEARTENING STATE: BUT PROMISE VITAL!

14 – 04 – 1997

When you were young, innocent then you were
When you couldn't judge, immature then you were
And your parents then injected into

You the virus of some God which unto
Now they aren't to any kind degree sure
And thus cheated you - poisoned fetus impure!

That's why - look around - you can't see Human
Beings; Moslems, Christians, all inhuman,
Hindus, Buddhists, Sikhs, Confucians, Jews
And a lot of all kind beasts do infuse
Enmity, to see the others with hate
In reality culminates to fight,
Killing; one another; may be nature's
Plot, before the man-explosion matures!

Presidents they may be of great nations
Public figures of great reputations
Scientists, may be of great inventions
Great philosophers of propositions
Doctors, may be of great performances
Writers, intellectuals; pronounces
Always who, against the superstitions
May be first one bowing and succumbing notions!

Education his may be high whichever
Holds position he great howsoever
Popularity enjoys whatever
Acme, acumen his need not measure!

But it's really heartening to see that
Population of the world is yet fat
With percentage that's four point four, by real
Human beings which is promise vital!

7. WHERE GOD PARDONS WHY Man HARDENS?!

28 – 11 – 1997

Sacred Books, all do contain instances
God punishing culprits, when need arises!
But, frequent, the news of idols stolen
From the Temples living or dead fallen:

Living, being the one still Deity -
Presiding, and the fallen one mighty,
Could be disintegrated or piety -
Having slackened abandoned by Deity!
Whether one is Deity pervaded
Or devil haunted, the thieves discarded!
Whenever they wanted, they were quite free
To enter temple any with nil degree
Resistance from God or the great public!
From museums or Churches, in frolic
They with immunity, could take away
Icons or the valuables that pay!
And may find their way even to countries
Foreign: smugglers' blessings earn currencies!

It seems no God is bothered about theft,
When God himself or herself is bereft!

Only few who steal, are by police caught
It's the same with iconoclast, caught fought!

God finds, difference nil between the theft-
Ordinary and that of idols dealt!

When Gods are not taking action any
Against those who steal them and sell many;
When Gods capable, consider writing, not -
Blaspheme and ever punish them not,
What right has the so-called, God's assistant
To pronounce 'fatwa' against the dissent?!

(((((0)))))

8. MIGHTY MISCELLANEOUS!

29 – 11 – 1997

(1) Conditioned are we!

We see the plants grow, the seeds germinate,
Flowers blossom, fruits ripe: but terminate -
They all, at one stage or at the other!
Our eyes are accustomed, but none bother!
Babies, plants, buildings come into being,
In front of our eyes, we see this happening!

With eyes same, we see the ruin of all -
That's old, sometimes even young and new fall!
You too do create things many, only -
To be seen one day destroyed completely!

So, you found it convenient to attribute
Creation and destruction to God to contribute!
Brain ours is conditioned to phenomenon -
Of all coming into being or to naught oft and on!

So, for all of us it's easy to reprove -
Something already existing, than approve!
Finds we limit for everything; our mind -
Is very narrow, so limiting kind!

We can't think of a Universe so vast
With boundaries at infinitude lost!
So, to man's mind narrow, the Universe
Seems wonder, great, answerless, and turns worse
His thinking, again giving birth to God!
Oh God’s assistants, give thanks to the mad!

(2) Why, no new real God?

We have heard of the Goddesses and Gods,
Their marriages, their families, Lords,
Their children, their marriages and grand-children!
But, nothing's heard of their grand-grand-children!
What had happened to their fertility?
All of a sudden, new God's nihility!
We no more hear of any genuine
Descendants of God: but to some, human -
Beings are God's children: then how they lost
The magical powers God had, then most?
Here and there some Fakes appear now and then,
God-men: 'XOMES’ and 'YOMES'; mainly to cheat Man!

Weren't concepts, God and families fictitious?
As no new Gods genuine religious
Were or are, seen as descendents emerging?
They were all fictitious creations wing!

Let's salute the authors of Sacred Books,
For, their imagination really looks
Not only fantastic and enigmatic,
But, also, some even futuristic!

(3) Gesticulations!

The Dumb makes gesticulations; for, they,
To communicate, have no other way!
But, why, they are performed so, to invoke -
The Gods; or are they funny made to provoke?
Pantomime and rituals who invented?
Great God created everything wanted!

Why He requires man's generosity -
To have what He wants? Curiosity -
Would like to know, when everything belongs -
To God, what's the meaning of offerings?!
Sacrifices made to God to please Him?
Contradicting ideas in Books make dim -
The qualities positive they do have!
To cheat Man, ways different invented by the Knave!

(4) Why made Man not immune to vices?

IF GOD WANTED, HE COULD HAVE CREATED MAN -
QUITE IMMUNE TO VICES, but away He ran!
So, it's amply clear, He wanted to make man
Do evils, to punish him as much as He can!

Is mentality such, quality of God?

So, reality is, man evolved, broad
Not God-created, as it's reported,
For, God's creations, flaws eliminated!

(5) Are They too Fairy-tales?!

Animals and birds talk in Fairy-tales!
Books Sacred are known, reality files!
Yet, in Books such, we see monkeys, birds and snakes
Talking to man and God But, commonsense mocks!

God created man, and immediately -
He talked to them; language actually -
Not mentioned in: unfortunate aren't we?
God can do wonders, might have created He,
Man, ability endowed to follow -
Gods' language, but how snakes talked to man, hollow?

History teaches us, language evolved
Through duration long prolonged, involved!

When man came into existence, his brain -
Was undeveloped, slowly man could train
His intellect for his own betterment!
It's just fact everyone knows, improvement
Still is taking place, and will continue!

If from the time of coming to existence, man knew -
Language, man would not have taken so much -
Time to progress to the present kind reach!
So, isn't it quite clear, Man not created!
But, evolved as Darwin had well stated!

(6) Is He against our culture?

It's told God created him and her first
If, only one YOME and one XOME were first -
Created, then aren't we all their children?
Naturally, poses this great question -
On descent of later generations!
Different workable combinations
Go against our present day conception,
0f culture, morality and creation!
Are we to consider Man more civilized than God!
For He in His creations gave chance for free sex nod!

If first couple had one daughter and one son,
Father-daughter, sister-brother, mother-son,
Might have been the combinations that gave -
Life to next generation! Thought ours crave -
To get enlightenment through religious -
Genius: seems it, God thought of no serious -
Restrictions in sex: but the different -
Religions do impose curbs different!
Isn't it, act against God omnipotent?

Are we more civilized than God competent?
He didn't create 'XOME' alone or 'YOME' alone:
Created both sexes means, it was forgone -
Conclusion, sexual reproduction -
Should continue to avoid reduction!
Creating species with asexual,
Kind reproduction biological,
God proved His ability to create
Both! In Man He preferred what He felt right!

So, let's admit God did wrong by making
Near-blood-relations combine, creating
0ffsprings; But, how can the great God do wrong?!

So, conclusion we have to arrive is strong-
Enough to believe that man had evolved
And not created by God, as believed!

(((((0)))))

9. IT'S LATE!
BREAK OFF YOUR COCOON AND COME OUT!

05 – 12 – 1997

0f different kinds are Gods and Goddesses!
Imaginary - that Man buttresses
Legendary - to cheat, Man harnesses
The Fake and, status Man thrusts upon Weaknesses!
Sun, Earth, Water, Wind, Fire ..... imaginary:
Religions' Gods, the main – legendary!
Though known they're noble - historically,
Status thrust upon them ironically,
Compels Man to believe, them too as Gods -
Who never at all claimed, we know, to be Gods!
Didn't even envisage Buddha, existence -
Of a God Supreme, but, just preached conscience -
His, felt good, for well being 'f man - loved mercy!
Doctrine appealed to all and many turned crazy!
Attached he importance little to ritual
And ceremonies; but, to the factual
Of kindness and that of equality!
But, man, selfish, transformed him into Almighty!

Century this witnessed man transforming -
Great reformists, to God, for attaining
Selfish ends! Sree Narayana Guru
If lived now, would have wept for actions of you!
By erecting mirror in place of idols
He revealed futility of idols!

Crime, isn't it thrusting upon someone after -
Death, what that individual disliked bitter
During his life?! And that's what, to them, Man did!

Some preachers, when found, man couldn't follow, hid -
Truth, and brought the idea of the God
To make them believe; that later did the fraud!
Prophets, Messiahs and others such, did play
The card intelligently; they didn't flay!

No God of religion any, ever -
Had sent a prophetess great to bother!
The Scriptures of no religion inform
0f a daughter 'f God, sent to earth, confirm
The authors of all main Books Sacred were
'YOMES' and not 'XOMES' - doubtlessly they declare!

The first grade Gods of all the religions
Are so conspicuous to be 'YOME'-Dons!
The religions such are really planned -
Plots, to make 'XOMES' play second fiddle to the demand
Made by 'YOMES'! So, 'XOMES' of the world, join hands
A give vast propaganda against all brands
Of religions; for, you have the right nil
To become a priest, no place for your will!
Confined to convents you can be a nun.
Only at private praying places! None
Other, that too just to pacify you!
You are only second grade, in their view!
Human beings of second grade! Wonder!
Do you want to continue slaves? Ponder!
Can you become priest in a, public temple,
Mosque, church, any prayer-place!? Why tremble?
If you try, all 'YOMEŚ' and 'YOME'-religious-
Heads will not spare you; very rigorous
Will be the disciplinary action -

Against you for dictum violation!
Unnatural dictums of religions!

Few, not staunch believers in religions
Do believe, at least there's a Single Power
That governs everything, pervades over
Atoms to amoeba: but fact is, that there are
Lots of powers different and what we see's on par
With resultant of all powers' interactions!
Tell, what's use of worshiping brainless powers' actions?!
Lots are the number of religions in world,
Seventy nine percent are in its fold!
Too many religions mean, Gods many!
God of single, why He permitted many!?
Either the concept of religion is wrong
Or Gods not having ability, strong
To control human beings, envisage -
How the Man's mind would think and discourage!
This do really question existence
Even of God, religion's sustenance!

Are we fools to believe God a sadist,
A Cheat, Rogue, Wretch, Envious, Partialist,
Blood thirsty, Flattery Addict: even
If religions, preach so, it's uneven!

Gods of some religions are depicted
Princely luxurious and credited -
With, gold, silk, diamonds, jewels, palace -
Adoration, while others do dispose!
All the Intelligent would believe none
Contradictory couldn't be the God one!

Sixteen point four percent non-religious
And four point four Atheists, the non-pious,
Totalling twenty one percent, the world
Is blessed with population quite bold!

(((((0)))))

10. VEGETARIANISM!

10 – 12 – 1997

Lived Man at places different on earth
Under conditions different from birth!
Varied too, food availability,
And so the food eating-ability!
Where only vegetables were plenty
Man turned vegetarian, guarantee!
Non-availability of sufficient
Vegetables and nearness to efficient
Fish-feeders, rivers, lakes or seas, made Man
Fish eaters: where animals and birds were, pan -
Was emergence of Man carnivorous!
And vegetables and flesh, omnivorous!

Exists the Universe because of cycles -
Different: water-moisture-water cycles,
Oxygen-carbon dioxide- 0xygen,
Lifeless-things - plants - live-things- lifeless-things: when -
Cycles such are the basis of Universe
No meaning in the religions diverse -
Views: one for vegetarianism, while
Another advocates against, virile!

The vegetarians are, almost nil
Milk isn't vegetative material!
Consuming milk products and then claiming
To be vegetarian, no meaning!
Milk is extracted from a living being!
So, milk can't be vegetarian! Bad saying!
Once the newborn first sips the milk from mother
It turns out to be a non-vegetarian without bother!
Argument says nothing is killed for milk -
Extraction: even without any risk -
Of killing an animal, its flesh can -
Be cut off and eaten, now our science can!

Argument same is mooted for 'Vegetable-
Egg': the unfertilized one, mockable!

(((((0)))))

11. THINK IT OUT!

17 – 12 – 1997

Religions some say, God has no form, shape,
Body, but God exists everywhere ripe,
In you, them, and all; in lifeless and life-full,
In big things ad small, and is newer dull
But wonder, addresses in the same breath,
God ‘YOU’, as if having life, body and death!

Whatever form you imagine ad pray
God would appear before you, in a tray
Would sound great philosophical, to Weak,
But, flattery addict nature does sneak!
So, one thing quite sure, only the one who
Flatters Him the most, could get needs, alms! Pooh!

Argues they, nothing in Universe takes place
Without God's knowledge - even not a trace!
Means that, whatever that happens on earth,
Good or bad irrespective! Does it worth?

Human gatherings suit for cruelties,
For them, no lack of opportunities
No matter, market, creche or hospital
All are equally full of life vital!
Terrorists indiscriminate, open fire,
Unable to discriminate God's here!

Are the innocents brutally shot dead?!
With concurrence 'f God, as nothing could head
Without God's knowledge - as claimed by God's Men!
Wonder, terrorists scot-free live in their den!

Can you argue, all the dead were sinners
Or the terrorists were good-deed winners?
Were the babies of the creche not innocent?
Were they sinners in their life's previous stint?!

(((((0)))))

12. DOOMSDAY!

09 – 05 – 1997

Deathly silence one prevailed at Alang
World's biggest ship-breaking yard, all along,
0f sledge hammers on metal heard no ‘clang’!
Gas burners, cutting plates never 'hiss' sang!
In graveyard silence, deserted looked ship-yard
Pamphlet astrological forecast fraud
Frightened workers, of Doomsday on eighth May
Ninety nine, fled to family; logic couldn't sway!
Nothing happened that day, other than usual,
Doomsday lot passed, happened nothing unusual
Cheap tactics of God-mongers to keep God alive,
Pity, Man couldn't grasp their plot to deceive!

If devastating cyclones and earthquakes
Happen, neither your prayers nor Gods brakes
Could stop it, sure destruction will take place.
Out of predictions thousand, if one saves face
That will get enormous publicities
But, failures soon forgotten as, it is!
Pity: Government haven't courage enough
To ban practice of astrology – bluff!

In the way same as Shoemaker-Levy
The comet that smacked Jupiter heavy
One day if some comet comes directly
Towards earth, will hit God too brutally!

The more the science advances, the more
Frightened the advocates of religions are,
Helter-skelter they dash aimless, here and there
Without they knowing what to do to spare
Or halt the erosion of the concept
Of God- exposed stands precept!

13. SAVIOUR OF SINNERS!

25 – 04 – 1998

Confirmed the forty-year old wife, that her-
Husband died in sleep, peacefully - not rumour!
A peaceful death in a comfortable
Sleep, to one of the worst most ignoble
Dictators of the century: enjoyed
It in return for the great genocide
He masterminded and executed!!!
Not few, two millions were executed!
Perished lives, thus under the Rogue regime!
Nineteen seventy five to nine, played the game
By one of History's notorious
Mass murderers, quite ignominious!
Without even the semblance of a trial
For monstrous atrocities, burial-
Nice, ruthless Cambodian savage got!
No God came to punish the sinners, hot!

He knows everything, why didn't He help
If there existed, a worthy Chip!
He could not have sat quiet and enjoyed chopping
Of innocent heads and drank blood dropping!

The livelihood earners in the God's name
Will shower sugar-lies, to fool you, tame!
Six millions were killed in Nazi Holocaust!
Why didn't He prevent Jews' massacre vast-
In Germany: Rwandan massacres' sting-
In former Zaire; terrorists terminating
The Innocents in Kashmir and elsewhere!
Were all those killed condemned in His eyes' fire?
Or is He saviour only of sinners
And not of innocents?! Good God's manners!

14. SPIRITUALITY!

25 – 04 – 1998

Spirituality doesn't mean, only -
Those connected with soul or God holy.
Majority think so, that's great folly
It means connected with mind too, duly.

Sacred means "set apart for a solemn
Or religious purpose"; meaning of solemn
Is, “serious or earnest"; so, earnest
And/or serious things or thoughts sacred, best!

Shed your beliefs blind, and love each other,
Help, needs help, whatever you can, whether
It's financial, physical or mental,
Let's all acquire the habit, in total.

Call this habit, THE GOD and that surely
Will always be at your help sincerely
“Do unto others as you would they should
Unto you", proverb - vitaminized food!

Even when God rules, aren't there bad people
0f all hues and colours God couldn't humble?
If in God's absence, you feel they would increase,
Those commit bad in God's name will decrease!

Confine not your love among the mankind
Extend it towards nature, you can find-
Essential it, for our own survival
Vegetable, animal and mineral
Kingdoms are interlinked; aren't there even -
Animals, wild lions few that had given
Friendly relation with man who loved them!?
Dogs love master even if love not returned to them!

Isn't so, foolish, man with thinking power
Not loving and helping one another?

15. INTELLECTUALS MEEK!

15 – 01 – 1999

(a) By Pass Surgery!

For a heart operation on twenty-
Six, six ninety seven, University
Hospital, Washington, got admitted
Doctor Jobs on detailed scanning, noted,

Cardiologists, in his artery,
Blood-clot was overcome by some very
Small arteries' network taking up blood
Circulation around clot - very good
Collateral circulation natural!

God-mongers struggle to make a moral
Out, and seized the opportunity good,
Publishing under captivating head
“God's bypass surgery"- terming it as
Medical terms: wonder half a page was
It in HINDU-daily, claiming that it
Was demonstration latest of God's wit!

Sufficient this to arouse passion in
Man hypnotized mad, in religion-win!
Pity the Man poor, without self thinking-
Power; why, who claim it's God's work, not taking
Claim, that it was really God himself
Who created the blood-clot - not Job-self!
Did we make blood-clot in Job not to live?
God-mongers' tactics to keep God alive!
“Prevention is better than cure”, then why
God didn't prevent the blood-clot, instead try
To demonstrate His power, to cheat Man?!
C/o-God-livelihood-earners do fan
Superstition the greatest, with so knack
To fool intellectuals - blessed are the meek!

Very rare case it's, new arteries growth -
Such, on the heart, which they found, exploit worth!

May be sometimes, a propaganda stunt
For, Job too one who spreads "God's message" blunt!
They are veterans of Turin Shroud fraud
And so need not wonder of their plot shrewd!

Plant-shoot grows to the place where there is light
And root grows to place where there is water right,
Tail lost lizard grows a tail new and head-
Lost earthworm grows a head new- it is said!

(B) Poor egg! Tree, idols 12-1-1998

On eleven one ninety eight, HINDU -
Published Cape Town news of an egg, thought would undo -

Atheism, as thought they; that it was proof against!
“Allah is great", in Arabic amongst
Some mottled brown ridges on an egg appeared -
To spell out and so it was brought unhampered
To a mosque in Cape Town's Woodstock suburb!
Just watch on an old wall defaced, superb-
Designs and shapes will appear there before you!
Alphabets Arabic would give fine view
Because of its peculiarity!

Banian tree once got popularity
At Oachira, Kerala, in a shrine,
As its root bulged like God Ganesh, Man does enshrine!

People dashed, to see in Ganesh-temples
Idols drinking milk, giving atheists tramples!
Scientists proved it capillary suctions.
Deaf hear, Dump speaks, Blind sees, limp walks, staged actions!
Ancient shrines few were secret mechanisms having
Simulating door itself opening!

16. CHROMOSOMAL-ABNORMALITY, VERSUS TWIN TROUBLE!

CHROMOSOMAL Abnormality! 25 – 01 - 1998

News of Men, exemplary doctors some,
On twenty two, one, ninety-eight did come -
In HINDU; embryos three, implanted
They in woman's uterus and expected.
In in-vitro-fertilization, it's -
Common to implant multiple fetus
To ensure a successful pregnancy!
In the thirty one year old one’s case, fancy-
Didn't fruition, as abnormalities -
Chromosomal, caused to fuse the qualities
Of two embryos, while the other one
Failed to survive, giving, birth to The None
An infant with both XOME and YOME sex organs!
The British woman was well - Washington's

News said: ‘Twin Trouble’ shows God not above-
Man, God too commits mistakes any how!

Twin Trouble! 30/1/1998

When Dasha Krivoshlvanov drinks, wonder
Sister Masha Krivoshlvanow didn't hinder,
But, though she doesn't drink alcohol, is tired
0f getting drunk, and so too much suffered!
When Masha smoked cigarettes, her sister
Dasha is the one who feels sick faster!
Sisters, forty eight year old Siamese
Twins, joined at the trunk and do share the base,
Two legs and circulatory system,
Itar-Tass news agency reported item!
Doctors helped, together they quit their
Habits! The Moscow news was published there
In HINDU of twenty third January
Nineteen ninety eight! God exemplary!

17. THE WONDER BABY!

03 – 08 – 1998

On twenty seven, seven, ninety eight
Hindu reported, birth of YOME baby right,
At the District Government Headquarters
Hospital; to the couple labourers,
One Dhanapal, thirty one and his life -
Partner Parimala, twenty five, his wife,
Of Ranganayakapuram, Karur,
Through Caesarean section and in galore,
On Sunday, visitors thronged hospital
As news of the birth spread through recital!

Why Saturday night's birth caused such flutter?
All the features of baby were, utter-
Normal, except for the twin heads attached
To each other and that is, what detached
The baby from other babies wholly!
Some perverted considered it holy,
And some frightened, as felt it bad omen!

Two heads on one body Oh Not human!
If everything is created by God
Then this too is created by the Lord!

Did He create it to frighten the Man?
If He created Man perfect, how can-
There arise, situation when God will
Have to frighten Man with fear of kill?
Imperfection in Man means either God
Erred or He played dice, resulting in broad
Deficiencies, in all the creatures!
But, God can't err! He won't play dice, features-
Einstein! So the only one conclusion -
Is, evolution and not creation!

18. HELPLESSNESS!

08 – 01 – 1999

On six- one ninety nine, HINDU published
Multan news of what militants accomplished!
Roared into a Shia Muslim mosque, gunmen four,
In a small village of Quereshi, to pour
Bullets on worshippers sixteen and kill;
And another twenty five hurt, until
They fell seriously; victim youngest
Being twelve year old boy, the one dearest
To Razia Bibi, the mother who sent
Him to mosque to pray, but brought home life spent!

Before beginning day-long fast they were
Completing morning prayers, to forbear
From even the saliva swallowing
To please the sadist God of great following!

Helpless stood God stunned, unable to save
His own worshippers! Oh Pity the Knave!
The Sunní and Shia kill each other
All for the sake of God the great father!
Through Prophet, did ever God ask, Muslims
To split into two, Shia and Sunnisms!

If God created Man, organs sexual
Were too God's creation, that's what's factual!
If certain parts of sexual organs were not
Necessary, isn't it quite sure Gad would not
Have created them, just for Man to cut
Them off: to avoid sinning? What a cult?!

External genital organs of sexes
Both, are subjected to cruel axes
Actually isn't the circumcision
A crime heinous: against Man and God's vision?

19. EVOLUTION - MORE POINTS!

05 – 08 – 1998

On one-eight- ninety eight, HINDU, brought New York-
News of an additional absorbing work!
Experiment by Dr. Wachtershauser
Showed it possible in a Simple mixture
Of iron ore, nickel and the volcanic -
Gases, hydrogen-sulphide and CO could kick-
Off an active carbon-based chemistry!
Amino acids - building blocks of entry
To today’s proteins can make the link known
As a peptide bond that forms the back-bone
Of proteins, under similar conditions!
Peptides the short protein chains; conditions-
That plausibly might have had existed
On early Earth, can form; he exhibited!
New reaction showed it easy to make
From such kinds chemicals inorganic,
Biological compounds that led well
To origin of life, the first living cell!

Pre-biotic reactions occurred not
In solution, but on surface, that got
Chemistry started in 2-D and only
Later into three dimensions wholly!
Whatever be the difference between
His and Miller's are steps of grand march, we have seen!

Surry University, England clears
One of the mysteries evolution offers!
Using computer model, researchers
There solved, how dramatic jumps - that covers
Development of legs from fins of fish
Or evolution of bird-wings, their wish -
From Dinosaur legs were initiated!
Chromosomal parasite generated
Many of the key evolutionary
Innovations were their discovery!
The parasite they called a transposon!
Examining evolution vision
The organisms with standard mutations,
Tended to become trapped in confusions!
But, when they infected their artificial
Creatures with transposon mutants, real,
Committed they a grievous bodily
Harm to chromosome, leaving finally
It in a debilitated kind state
That promotes subsequent creative fight,
- Evolutionary innovation!

In a way similar, the promotion
Of the key leaps forward many were made
Possible by transposons in the hide
In the process evolutionary!

Let's use our powers discretionary
To decide our origins creation,
Based in faith, or science, the evolution!!
Let's not fall a pray to superstition
To feed c/o God cheats' conservation!
Let us not encourage prostitution
Of God, in His name and of salvation!
Let's not be swayed away by trepidation -
Psychosis, for cheats usurped religion
Killed God for skin for impersonation
Do good deeds to overcome persecution!

20. SPIRITS!

10 – 03 – 1998

If death, result of accident, there is belief
The spirit of victim, without relief
Would hover here itself and create trouble!

Man's thinking going astray horrible!
There exists nothing like so called spirit
Perversion lunatic doesn't worth merit!
Life does involve physical, chemical,
Biological, even electrical,
Mechanical, electronic and what not!
But not spiritual, it's collective lot,
Just an all working condition effect!

Is there difference any that reflect?
Between soul and spirit; spirit seems have
Connotation bad too, to mean ghost knave,
Whereas soul, the moral part of Man's nature -
Alone, but to spirit, soul do feature!

Death leaves matter alone, and not in it
Wave electro-magnetic, called spirit!
For frightening, Man, it is brain child of
Wiseacres specially designed well off!
Money-earning-item in the hands of crooks,
Witches, black-magicians who practice tricks
And witch-doctors, the 'Brothers and Sisters'
Of the so called, God's-Assistants, clusters!

Spirits, devil, jinn, fairy, angel all,
Their creations, money minters at call!
Lively-hood earners without doing work,
To keep man under their control, does trick!

Let's educate Man and try to perfect
Him, and see we lead him in path correct!

21. HERMAPHRODITES!?!

07 – 11 – 1998

Wonder! You say God created the Man
Agree, as you mean, created God, with plan,
‘XOMES' and 'YOMES ', blessed them with ability
To multiply! What credibility!

But, why created God, Hermaphrodite?
Nor God's Assistants or Believers state
About the aberration to God the Grate’s
Versatility! 'May His fame' grow heights,
For the mental torture great awarded
To the pitiable lot who are warded!
If God created Hermaphrodites too
Isn't it, really discredit?! “Phoo - phoo”!

Of three kinds are the bees: the Queen the XOME;
Worker-hermaphrodite, The Drone the YOME
Hermaphrodite-worker served there the purpose,
But, among human beings, the Corpse drops!

What purpose Hermaphrodite creation
Achieve like Siamese-twins distortion?!
Oh! Did God do so to see and enjoy
The sufferings of Man, tell me you boy!
We know God is sadist, enjoys sufferings -
0f others; you may argue, His doings -
Are to test Man's devotion and punish,
For, God couldn't create Man faultless, but foolish!

If God created Man, it couldn't have happened,
For, God can't err, nor did He play dice, friend!
So, aren't we to come to the conclusion?
Man not created; but, through evolution,
Came He into existence, mutation
Being reason for any distortion!

(((((0)))))

22. BANKRUPTCY!

19 – 12 – 1998

'A Thesis on God' gives the Man's concept
Of God, but, how bankrupt is Man's concept?!
Man conceives “Self” as the perfect of all
Perfection concentrated without fall!
So, if God had created every thing
There would have been perfection in everything!
But, is there perfection in anything?
No, it seems there's perfection in nothing!

Hermaphrodites are examples perfect
For God's bankruptcy in thinking direct!
Bankruptcy in visualization wins
In the creation of Siamese-twins!
And the Handicapped are time proof for
God's inability greatest that mar
The concept on which Man created God!
Man never dreamt of creating such a fraud!

When Man drew God's character, man never-
Thought such kind of flops may crop up ever!

Into Jupiter, the plunge of comet-
Shoemaker in July ninety four, met-
His imperfection's perfectness, not only
In the creation of items lively,
But, also in that of the Universe!
(Just an eye opener to future, that’s worse!)

Utterly did God fail to envisage
In advance and couldn't from destruction salvage
Man from disobeying the Creator!
God even lost status as protector!

God can't be in such pity condition,
So, evolution is Man's tradition!

(((((0)))))

23. DEATH OF GOD!

19 – 12 – 1998

Who is behind the plot of keeping God alive?
Clear, those who struggle keeping Him alive!
Those who struggle are the beneficiaries
Who thus earn a living, the missionaries!
Making all Ignorant, blindly believe -
God is only solution to relieve
Them of all pains, mental and physical,
Try to keep God alive, hypocritical!
Even financial - for, all Gods mint money
And missionaries drink it like honey!
If God dies, priests can't earn their livelihood;
They will have to sacrifice their princely-hood!
It's Man's ignorance that's the life of God
If it's terminated, that's end of God!

Once Man's ignorance eliminated
Universal love is promulgated,
Our brotherhood is perpetuated,
Universal peace is perpetrated!
Is there any priest, except the class four!
Who sweat to earn a living, the next door?
Drinking wine, reading scriptures, fooling Man
Telling stories, preaching sermons, they pan!

If limitless, God's powers, what's the need
For broker between Man and God, to heed?!
Can't He directly understand Man's need?
Why third party to mediate, to feed?
The computer 'Swayambhoo', the self-born!
As long as the middle-men exists, prone
To subjugation is Man to avoid
Knowledge spreads: Priests can't exist, God devoid!
Twentieth century's end, as it nears,
A spurt in religious matters and fears
Of God is seen, wonder all the Intelligent!
The well organised sector, God's Agent,
In God's name, a living luxurious
Who do earn and lead easy life, dexterous
Have toiled restless, days and nights, behind!

Smelt they, danger ahead, posed by the kind-
0f spread of knowledge and scientific proof
For origin of life - explained fool proof!

They in advance felt, one day God will die,
As evolution theory do vie
With creation-theory, and Man will
Conclude finally! Oh! There is proof nil -
To priest's theory on God and the truth-
Great is Man's evolution: from without-breath -
Matter, to the breath-taking and living!
Tunes, priests play, and to it the fools dancing!

If God is an all-merciful one, why -
He impervious to Man's sufferings!? Shy-
Of taking, care of even Virtuous!
Question perennial in the nervous -
Man's mind is agitating many still!
Many Scriptures ascribe sufferings, well
To Man's past 'Karma', a plot invented
By God's self-styled assistants, perverted,
For want of explanation plausible
For mankind's agonies not palatable!
Fervour artificially created
Can't last long! Will soon get terminated!
